Associate Professor

Research interests:
finance of foreign economic
activity of organizations,
international finance,
corporate finance.

PROGRAM MANAGER OF BSU

“ The program «Banking and finance» has been successfully implemented by BSU for several years within the framework of the Master’s degree program «Finance and Credit». Students acquire skills and abilities in the field of financial flow management of various financial and credit organizations. In addition, this program focuses on the study of international practice in the field of finance and banking. The classes are conducted in English. All this together makes graduates of this program more in demand in the labor market ”.

Gernot Kreiger

Director of International Banking
and Finance programme

PROGRAM MANAGER UAS BFI VIENNA

“We are pleased to implement a joint program with Baikal State University – one of the best universities in Russia in the field of economics, management and finance. The best students of our universities have a unique opportunity to receive two diplomas during their master’s studies and continue to be in demand on the European and Russian markets. During the presentation of the program to UAZ BFI VIENNA students, I note their high interest in studying at BSU. Therefore, I am happy to invite Russian students to take part in the program, spend a semester in Austria and gain invaluable experience in interacting with leading representatives of the European banking and finance sector.”

ABOUT THE PROGRAM

«**Banking and finance**» is a master's program involving the training of management-level specialists in the field of international banking and finance, as well as improving the skills of proficiency in professional English.

The program forms a modern understanding of the goals, tasks and challenges for international business, the banking system, and the specifics of the implementation of international projects. Teaches to work in cross-cultural teams, as well as to make effective financial decisions.

ADVANTAGES OF THE PROGRAM:

- The possibility of obtaining a double degree from the Vienna University of Applied Sciences (Austria).
- The possibility of combining training with work, promoting professional development.
- English-speaking environment and learning experience that allows you to pass the international exam at the B2 level and above.
- The use of modern educational technologies: discussions, case studies, master classes by leading practitioners in the field of training and foreign teachers from partner universities.
- Individual and group work, practices for obtaining skills and abilities in Russian, joint and foreign banks and companies.
- A joint team of the teaching staff of the university and foreign partner universities.
- The possibility of internships and included training in foreign partner universities.

THE TEACHERS SAY:

Kurgansky S.A.,
Doctor of Economics, Professor

«The Master's program in Banking and Finance is focused on the international level of training of highly qualified economists and future leaders in the financial sector. The program successfully combines fundamental training and focus on financial innovation, the search for efficiency and the achievement of strategic goals.»

Alekseev D.A.,
Candidate of Economic Sciences,
PhD

«The Banking and Finance program offers a rare opportunity to master professional English with full immersion in the study of disciplines in the field of international banking and finance, which will allow you to achieve a high level of professionalism in this field.»

Gorchakova M.E.,
Candidate of Economic Sciences,
PhD

«This master's program allows you to develop and deepen your knowledge not only in the financial and banking spheres, but also the skills of proficiency in professional English.»

In the second year of study, BSU students have the opportunity to study for 1 semester at the University of applied sciences BFI Vienna.

Obtaining a master's degree in the «Banking and finance» program is an excellent prospect for professional growth in the field of international financial and banking cooperation, for working as a regional manager in divisions, representative offices and branches of international banking and financial structures.

STUDENTS AND GRADUATES SAY

Mantatova A. 2017 year of release:

« I am proud to be one of the first graduates of this amazing program. My choice allowed me to study for a semester in Austria – in the Vienna University of Applied Sciences. At the same time, I received a scholarship from the Erasmus + academic mobility program, which covered all the expenses of flying and living in Vienna. During my studies, I was able to improve my English language skills, including in the field of finance and banking. The practice of the English language helped me later to get a high position in the head office of Raiffeisenbank (Moscow). Now, my main activity is corporate business analytics.»

D. Klinov, graduated in 2018:

«The learning process under the program is built on the basis of the best foreign practices – a great number of discussions, analysis of real cases, preparation of projects and their defenses. From my point of view, this format is far more productive. This program especially attracted me with the opportunity to study abroad and engage with representatives of the European financial sector.»

Tsydendambayeva S. 2021 year of enrollment:

«During the training, I was struck by the relevance of the presented material, the method of presentation and the high quality of teaching in English. Classes are conducted by teachers from both Russia and other countries of the world. After the successful completion of the semester, I became confident that after completing my master's degree, I will have more opportunities.»

Bobrov D. 2021 year of recruitment:

«Training in this area brings great benefits for my professional development. I expect from the training to improve the English language in the professional sphere, as well as a clear understanding of the structure of banking and financial systems at the international level.»

Budazhapova A. 2021 year of enrollment:

«I expect from the program an in-depth immersion in the topic of international finance and banking, improvement of English language proficiency and obtaining practical skills to work with foreign organizations. After 1 semester, I had positive emotions, because the information we received was given by teachers with extensive international experience and was very useful.»
